**KEPAQI** HELP YOU  
WITH YOUR WORK

The image shows a modern building with a blue facade. The word "KEPAQI" is written in large, white, bold, sans-serif capital letters on the right side of the building. The building has several windows, some of which are reflecting the sky and clouds. The overall scene is set against a clear blue sky with some light clouds.

# WELCOME TO KEPAQI

## COMPANY PROFILE

Nantong Great Tools Co., Ltd. is one professional company ,which specializing in the export trade of brushless tools and cable tools. We are committed to providing high-quality and reliable products to global customers, meeting the needs of different industries, and providing customers with one-stop procurement services and high-quality after-sales support. Our products have been exported to multiple countries and regions around the world, including Europe, South America, Southeast Asia, Middle East, Russia, etc

We have two major production base. Brands are KEPAQI and SanZu. We mainly produce brushless tools and some high-level quality cable tools. In addition, our company has established stable cooperative relationships with some well-known brand in the market. We are providing a variety of product choices and customization services.

"Integrity, innovation, cooperation, and win-win" is the company's business philosophy. "Customer First" is our company's service tenet. We have a rich experience in international trade and have one professional team. We are dedicated to providing you with the most satisfactory service and the highest quality tools. We are looking forward to working with you in the coming future days.

# KEPAQI SERIES

PAGE 01-24

# SYMBOL INDEX

The unique design style of the new lithium battery appearance is more atmospheric and more comfortable to operate.

The new high-efficiency brushless motor has strong magnetic power, strong and long-lasting use, and does not get hot. Longer lasting More durable.

The packaging adopts embossed laser carving design process, which is more beautiful and has stronger bearing capacity! A first in the industry.

The ternary lithium battery pack has undergone multi-link testing, and the PACK packaging is fully automated and more accurate! Safer.

The shell of the machine is made of laser laser engraving rubber, which is cooked twice to make the fuselage more capricious!

The charger is equipped with full protection and balanced charging function, which is safer to operate and more assured to use.

# SANZU SERIES

PAGE 25-64

The gearbox adopts the German metallurgical powder manufacturing process, which has stronger hardness and longer life.

Brand new lithium battery products, e-book with body QR code! Its parameters are in accordance with the national 3C certification standards!

# KEPAQI

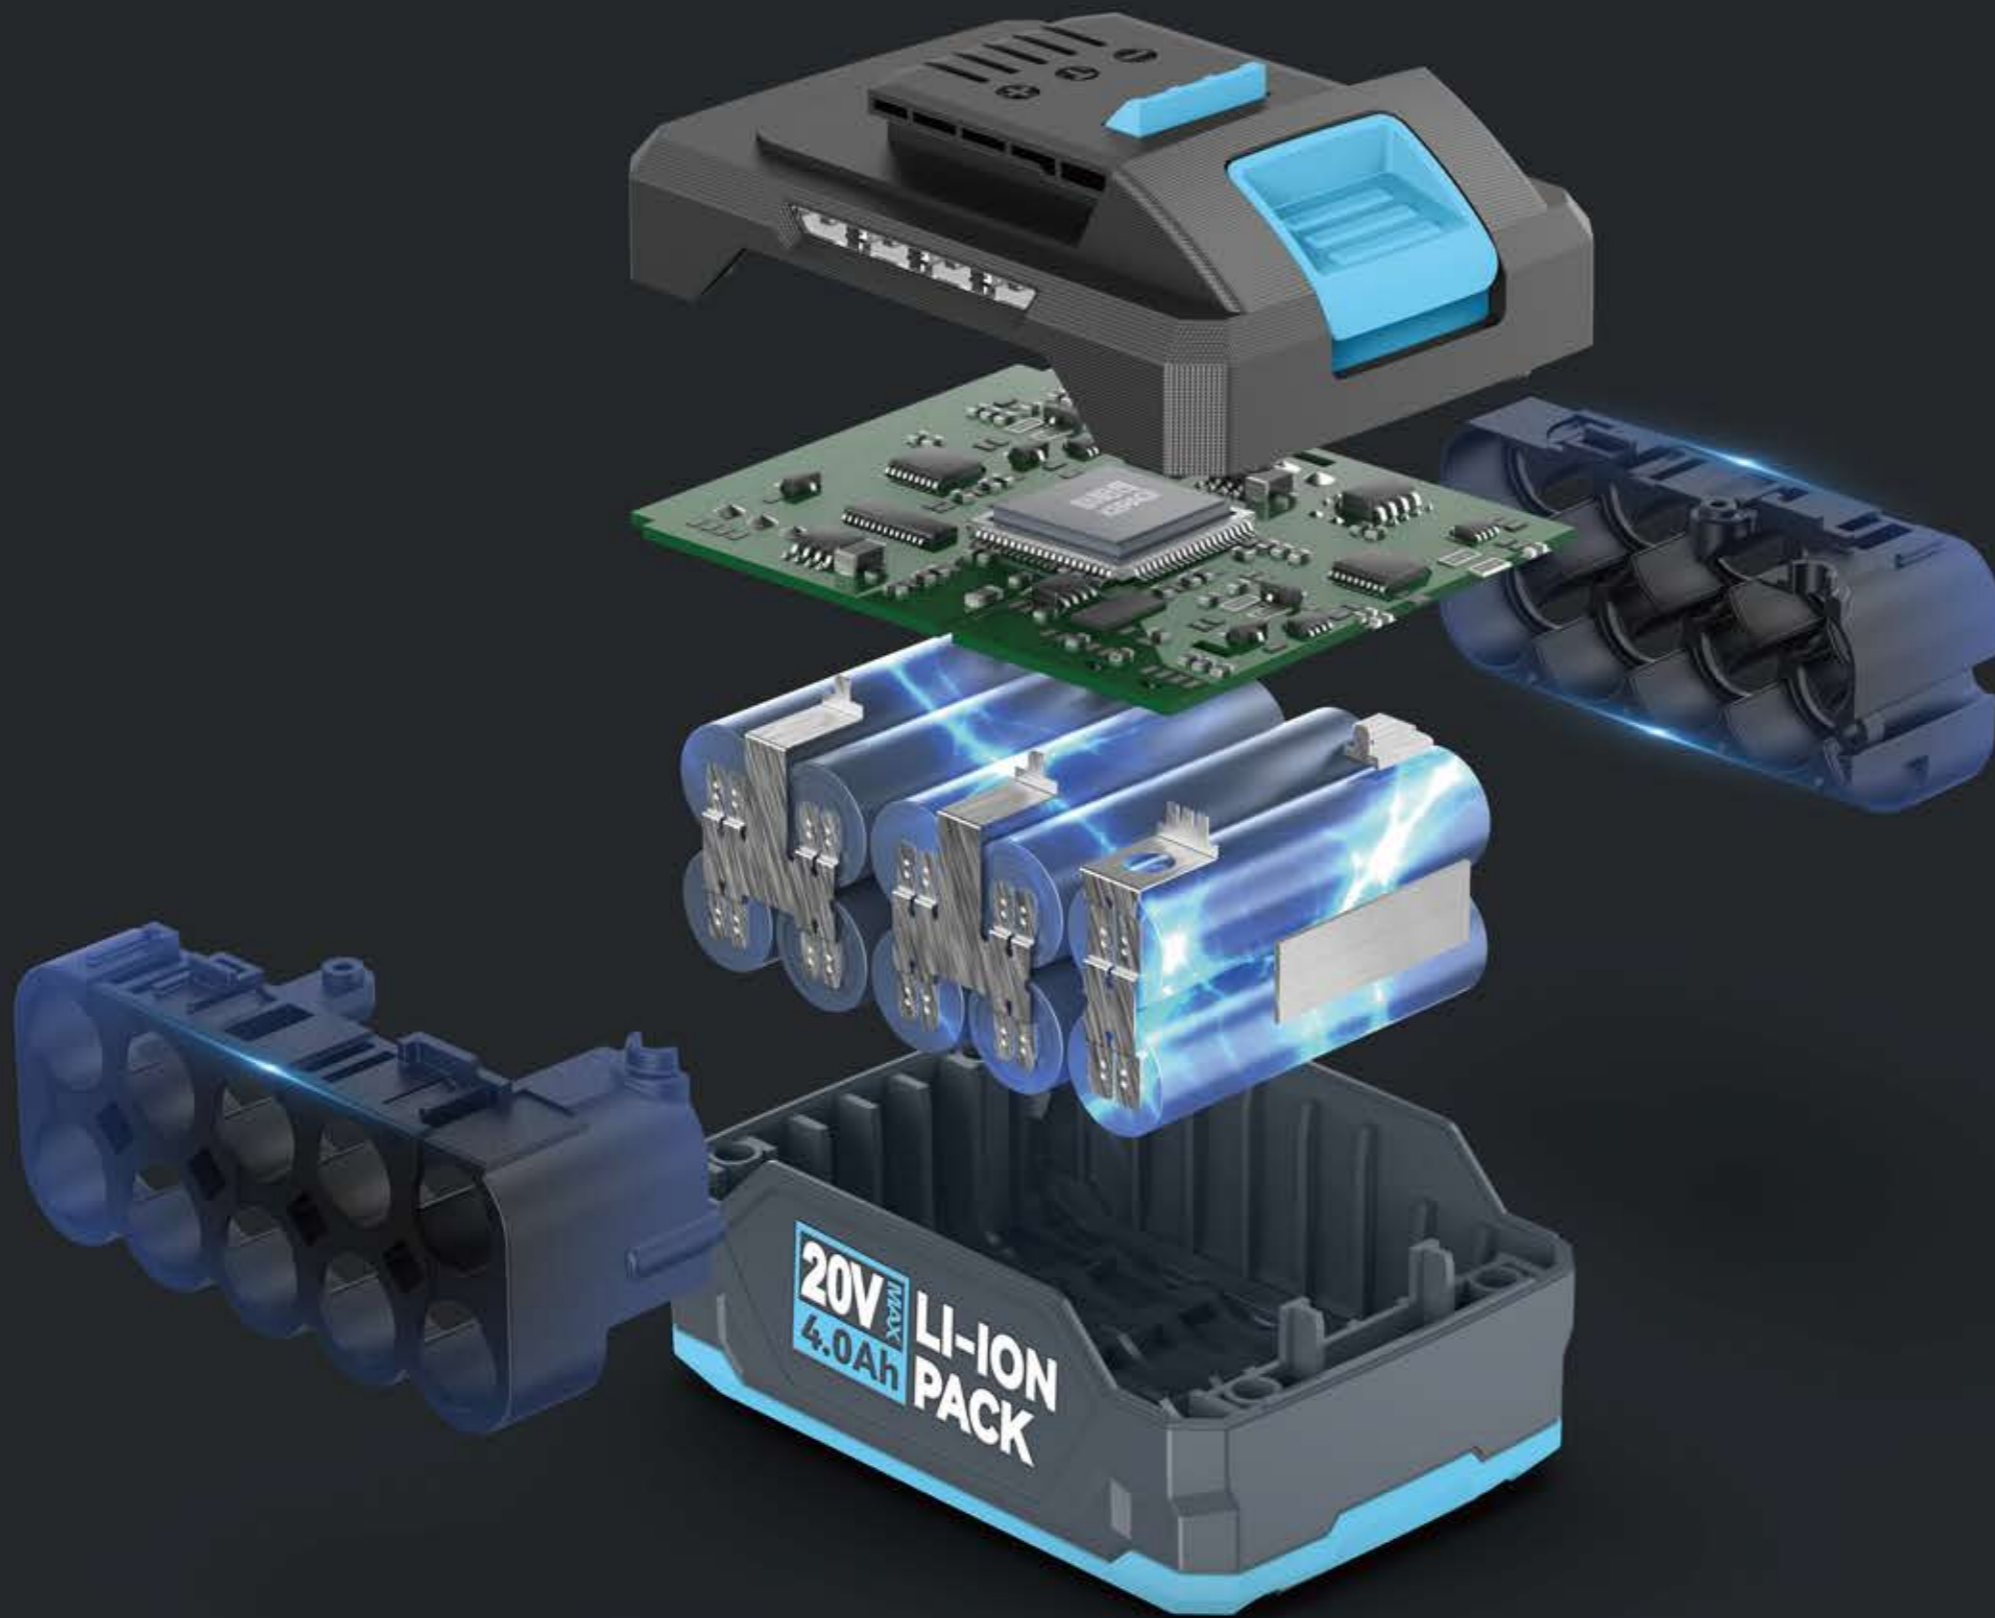

# KEPAQI BRUSHLESS TOOLS

The brushless motor is more efficient, with 50% longer running time, 25% more power and 10 times longer life. In addition, they are smaller and lighter than traditional motors, keeping Kapaqi tools compact and maneuverable.

Kapaqi's range of high-performance tools gives you proven power that goes beyond standard battery-powered tools. With efficient brushless motors, impressive specifications, and advanced engineering, Kapaqi Tools is designed for skilled professionals with higher tooling requirements. Bangli Tools has an extremely powerful 20V voltage for the most demanding tasks.

Thanks to our flexible shared battery system, you can easily use the same battery for our tools.

## THE FEATURE OF BATTERY

Kepaqi batteries are designed for tough daily tasks and tasks that require maximum power and minimal compromises.

This is ensured by a number of small processing details that work together to achieve superior performance, with the battery being charged faster and gentler thanks to an intelligent battery management system and the battery's special thermal protection. They have a longer lifespan and are more efficient in providing the energy they need.

This makes them the ideal companion for the Kepaqi lithium battery series

### Battery Health Protection System

- Single cell charging protection
- Single cell discharging protection
- Intelligent chip system provides longer running time and extends battery life

### Intelligent Power Control System

- Effectively extend the service life

### BMS Technology

- over load protection
- over-discharge protection
- over charge protection

## OPTIMIZE BATTERY RELEASE FOR TOP PERFORMANCE

Longer runtime, longer lifespan, faster charging and higher performance – Bangli is a new 20V battery designed for professional users, delivering outstanding performance thanks to its intelligent battery management system and advanced battery protection features.

# 20V MAX

Specification				
Charging Time	60min	90min	120min	180min
Battery Capacity	2.0Ah	4.0Ah	6.0Ah	8.0Ah
Weight	342g	662g	1.0Kg	1.08Kg

DRILLING AND TWISTING  
EFFICIENCY INCREASED

# 20%

High-quality gears last longer

## EFFICIENT AND VERSATILE

One machine is multi-purpose, to meet the needs of a variety of working conditions, the instant opening is small and powerful, dual-gear adjustment, low energy consumption, long battery life, and strong torque.

## KPQ16V-10A BRUSHLESS DRILL

**20%**  
More Drilling  
Efficiency

**15%**  
More Battery  
Life

Drill capacity(wood)  
**25mm**

Drill capacity(steel)  
**10mm**

**Compact body with multi functions**  
Excellent drilling speed and operational capabilities

- Super vibration control technology
- Anti wear design of torque gear
- Variable speed, forward and reverse switch
- Premium wear-resistant button

Ultra-compact body: Easy to carry and comfortable to hold.

**BRUSHLESS MOTOR** **MAX. Torque 50N.m**

### SPECIFICATIONS

### KPQ16V-10A

Battery Voltage	16V
Battery Capacity	1.5/2.0Ah
Drilling Diameter	10/25mm
No-Load Speed	0-450/0-1800r/min
Maximum Torque	50N.m
Clamping Capacity	10mm
Net Weight	0.77kg

# KPQ20V-10A/13A

BRUSHLESS DRILL

Life

Compact body with multi functions

Drill capacity(wood)  
**38mm**

Drill capacity(steel)  
**10/13mm**

- 160mm impact body
- Variable dual speed setting
- Lightweight design
- Excellent drilling capability, strong torque
- Excellent drill bit clamping strength

Ultra-compact body: Easy to carry and comfortable to hold.

**BRUSHLESS MOTOR** **MAX. Torque 55N.m**

## SPECIFICATIONS

## KPQ20V-10A/13A

Battery Voltage	20V
Battery Capacity	1.5/2.0Ah
Drilling Diameter	13/38mm
No-Load Speed	0-450/0-1800r/min
Maximum Torque	55N.m
Clamping Capacity	10/13mm
Net Weight	0.85kg

## LOW ENERGY CONSUMPTION, STRONG POWER

High concentricity, straight drilling, high-strength gearbox with dual bearing system, no deviation when tightening screws and drilling holes. From fragile wood to hard steel plates, simply adjust the appropriate torque to easily drill holes.

# KPQ16V-10C

BRUSHLESS DRILL

- Super vibration control technology
- Anti wear design of torque gear
- Variable speed, forward and reverse switch
- High quality wear-resistant band impact gearbox

Ultra-compact body: Easy to carry and comfortable to hold.

**BRUSHLESS MOTOR** **MAX. Torque 50N.m**

## SPECIFICATIONS

## KPQ16V-10C

Battery Voltage	16V
Battery Capacity	1.5/2.0Ah
Drilling Diameter	10/25mm
No-Load Speed	0-450/1800r/min
Maximum Torque	50N.m
Clamping Capacity	10mm
Net Weight	0.77kg

## MORE POWERFUL LESS EFFORT

16V powerful electric drill with impact, stronger power, with impact, effectively improve work efficiency, save time and effort, and have a wider range of applications in a compact body

**STRONGER POWER AND MORE VIGOROUS IMPACT**

Alloy gear with impact electric drill, strong drilling ability, a variety of working conditions can be done in one machine, more effectively improve work efficiency

**KPQ20V-10/13C**  
BRUSHLESS DRILL

- Excellent drilling capability, strong torque
- High quality wear-resistant band impact gearbox

Ultra-compact body: Easy to carry and comfortable to hold.

**BRUSHLESS MOTOR** **MAX. Torque 55N.m**

Li-ion 1800 RPM LASER CARVING 55 N.m

**SPECIFICATIONS**

**KPQ20V-10C/13C**

Battery Voltage	20V
Battery Capacity	1.5/2.0Ah
Drilling Diameter	13/38mm
No-Load Speed	0-450/1800r/min
Maximum Torque	55N.m
Clamping Capacity	10/13mm
Net Weight	0.85kg

### HIGH TORQUE SECOND LOADING AND UNLOADING

Less energy loss, faster drilling and longer run times, powerful power control. Ability to achieve the best accuracy, superior power, and meet the needs of multi-function.

**20V MAX  
4.0Ah LI-ION  
PACK**

## KPQ20V-2023 BRUSHLESS SCREW DRIVER

**15%**  
More Tightening  
Torque

**15%**  
More Battery  
Life

Maximum Torque  
**230N.m**

Impact Frequency  
**4500bpm**

- Hexagon chuck design
- Stable clamping LED lighting
- Not afraid of the dark and blind spots
- High-quality speed switch
- Gearbox is wear-resistant and durable
- Forward and reverse mode
- Compact body for access in tight spaces
- High-quality battery cells with long lifetime

Several easy-to-use working modes: easier screw tightening, adapt to different work needs.

**BRUSHLESS  
MOTOR**

### SPECIFICATIONS

### KPQ20V-2023

Battery voltage	20V
Battery capacity	1.5/2.0/4.0Ah
Clamping capacity	6.35mm
No-load speed	0-1800/2600/3300r/min
Maximum torque	160/180/230N.m
Impact Frequency	0-2300/3100/3800bpm
Net weight	0.9kg

### IMPACT GEAR

In forward and reverse mode, you can choose high speed/low speed gears to adapt different materials or screws

Mode light		
Apply occasion	Light loads	Heavy loads
	Disassemble and assemble the scaffolding	Machinery and equipment Auto repair

- High efficiency, brushless motc
- Rubber handles, handheld com
- Intelligent disassembly key
- 2-speed mode
- Very compact and well balance

Several easy-to-use working modes: easier screw tightening, adapt to different work needs.

**BRUSHLESS MOTOR**

### SPECIFICATIONS

### KPQ20V-350N.m

Battery voltage	20V
Battery capacity	3.0/4.0/6.0/8.0Ah
Square tenon size	12.7(1/2)mm
No-load speed	0-2050/2500r/min
Maximum torque	280/350N.m
Impact Frequency	0-2800/3200bpm
Net weight	1.01kg

### EXTREMELY FAST DISASSEMBLY

High concentricity, straight drilling, high-strength gearbox with dual bearing system, no deviation when tightening screws and drilling holes. From fragile wood to hard steel plates, simply adjust the appropriate torque to easily drill holes.

### MORE TORQUE

Strong torque, long-lasting endurance, three-gear adjustment, easy to cope with a variety of working conditions, simple operation, tungsten steel shaft, no deformation and no deviation.

Drilling capacity	20mm
Rated speed	1400r/min
Impact capacity	2.6J
Impact frequency	5000bpm
Net weight	2.1kg

**POWERFUL DRILLING FORCE**

Compact and lightweight design, lighter products, strong strength, multi-functional adjustment, adapt to a variety of operating conditions, with excellent drilling force and endurance system.

## STRONGER CUTTING POWER

Electronic quick brake, quick brake with quick saw blade stop for maximum safety. The 0-45° chamfer capability allows for aggressive chamfer cutting in a wide range of applications.

## KPQ20V-150 BRUSHLESS CIRCULAR SAW

- Soft start
- High quality metal base plate
- High quality lithium battery long lifetime
- Rubber handles, comfortable to hold
- High efficiency, Brushless motor

Net weight	1.8kg

### STRONGER CUTTING POWER

Innovative slim handle, optimal grip and comfort capability for optimal precision, Superior power for versatile needs, restart protection to prevent accidental start of the tool.

## KPQ20V-100/125

BRUSHLESS ANGLE GRINDER

- Brushless motor, efficient and durable
- All-metal protective cover, safe and secure
- Cycle heat dissipation, long-lasting cutting
- Cutting, grinding, polishing
- Compact body, lightweight and portable

The motor housing is slim and provides excellent maneuverability, user can operate it by holding the handle and the body.
